June 1, 2022

Israel Securities Authority Tel Aviv Stock Exchange

Dear Madam/Sir,

Re: Immediate report – Agreement between the subsidiary with client in France

The company is honored to report that the fully owned subsidiary in France has entered into an Agreement with Societe MP SA, a French company (hereinafter **Agreement and the client**), for the use of the Trucknet platform for a period of one year, beginning June 13, 2022 of which 30 days are a paid trial period. The period of Agreement will be extended automatically at the end of the first year, unless the client chooses to terminate the contract with advance notice of 60 days.

The client will pay a total of 5.3 Euros for each use of the BID services (digital transport tender) within the platform. In addition, for every smart match carried out through use of the Trucknet platform, the Company will collect 5% of the transport costs from the contractors registered in the system.

To the best of the company's knowledge, the client operates in the field of the manufacture and supply of vehicle tires in France and other European countries. The Company estimates that the client needs thousands of shipments a year.

It should be noted that there is no commitment on the part of the client regarding the number of trips carried out through use of the Trucknet platform; the information and the scope of the haulages that the client needs constitute forward-looking information as this term is defined in the Israel Securities Law. This information is based on the Company's subjective evaluations in accordance with the information provided and its attainment depends on various factors that are not within the Company's control, such as client satisfaction with the Trucknet platform over time. It is worth noting that some or all of these assumptions may not materialize or may occur in a different manner than expected by the Company.

Yours Sincerely,

Trucknet Enterprise Ltd.

Signed by: Hanan Fridman, Chairman of the Board and CEO
