Dear Sir/ Madam,

**Re: Immediate Report**

**DSV Romania to Advance Paid Commercial Use of the Trucknet Platform**

Following that stated in the Company's 2021 Periodic Report (hereinafter: '**Periodic Report**'), Section 27.3.6- Description of the Company's Business – published on February 15, 2022 (reference no 2022-01-16464), the Company is honored to update that DSV Romania has informed of its intention to advance paid commercial use of the Trucknet Platform to March 1, 2022 (instead of on April 1, 2022, as stated in the Company's Periodic Report). The paid commercial use of the platform is estimated at a scope of 300 trips per week, against payment of 3 Euros for each trip.

In the Company's opinion, the commencement of the commercial use by DSV, as aforesaid, will further promote the use of Smart Matches by haulage contractors registered in the system.

The information provided above regarding the scope of use by DSV on the platform is to the best of the Company's knowledge, based on the data in its possession, and without these data being independently reviewed by the Company. Furthermore, the Company's estimates regarding the use by DSV constitutes projected information as defined by this term in the Securities Act. This information is based on subjective assessments of the Company and its realization depends on various factors which are not under the Company's control. It is hereby clarified that these assessments may not materialize, in whole or in part, or may be realized in a different manner than that evaluated by the Company.

Yours Sincerely,

Trucknet Enterprise Ltd.

Signed by: Hanan Fridman, Chairman of the Board and CEO
